EXPERIMENT – 5

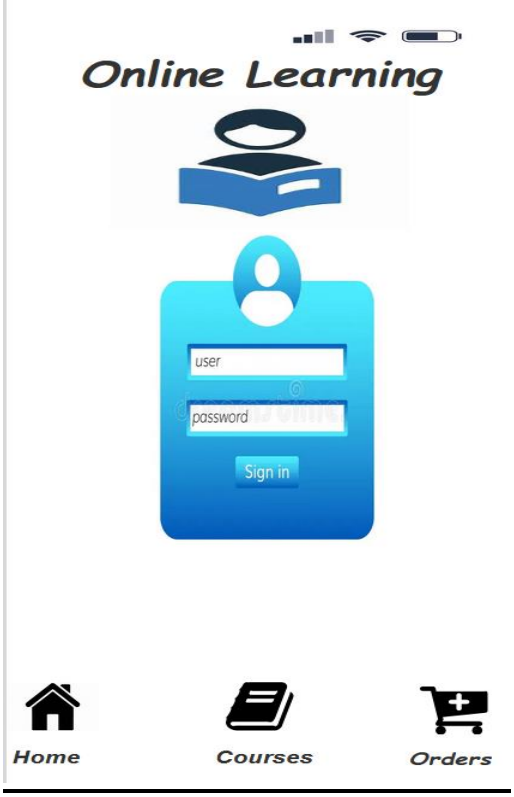
Name: Harini Nagarajan Roll Number: 240701167

Simulate the lifecycle stages for UI design using the RAD model and develop a small interactive interface using Axure RP

AIM :

The aim is to demonstrate the lifecycle stages of UI design via the RAD model and develop a small interactive interface employing Axure RP.

LOGIN PAGE :



Page Name: Login Page

Description:

The Login Page allows users to securely access the Online Course Learning App using their credentials.

UI Elements:

- Username / Email input field
- Password input field
- Login button
- Sign Up link
- Forgot Password link

Functionality:

- User enters email and password
- On clicking **Login**, system validates credentials
- If valid → Navigate to Home Page
- If invalid → Display error message

Interactions (Axure):

- **OnClick (Login Button)** → Open Home Page
- **OnClick (Sign Up)** → Navigate to Registration Page

HOME PAGE :

Page Name: Home Page

Description:

The Home Page is the main dashboard where users can browse available courses and categories.

UI Elements:

- Search bar
- Course Categories (e.g., Web Dev, AI, DBMS)
- Featured Courses section
- Navigation bar (Home, My Courses, Profile)

Functionality:

- Users can search for courses

- Users can browse categories
- Users can click a course to view details

Interactions (Axure):

- **OnClick (Course Card)** → Open Course Details Page
- **OnClick (Category)** → Filter courses
- **Navigation Bar Buttons** → Switch pages

MY COURSES :

Page Name: My Courses

Description:

This page displays all courses that the user has enrolled in.

UI Elements:

- List of enrolled courses
- Course progress bar

- Continue Learning button

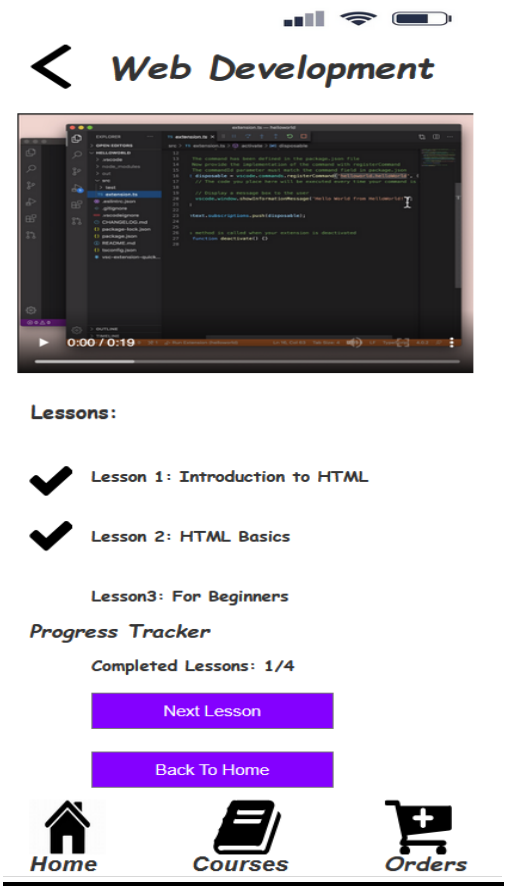
Functionality:

- Shows enrolled courses
- Displays completion percentage
- Allows user to resume learning

Interactions (Axure):

- **OnClick (Course)** → Open Lessons Page
- **Progress Bar** → Visual representation only

LESSONS PAGE :



Page Name: Lessons Page / Video Learning Page

Description:

The Lessons Page allows users to watch course videos and track their progress.

UI Elements:

- Video player (placeholder in Axure)
- List of lessons/modules
- Progress tracker
- Next Lesson button

Functionality:

- User can watch lesson videos
- Mark lessons as completed
- Track course progress

Interactions (Axure):

- **OnClick (Lesson Item)** → Change video content
- **OnClick (Next Lesson)** → Move to next lesson
- **Progress Bar Update** → Simulated using dynamic panel

Prototype Link: https://drrdy4.axshare.com/?g=4

FINAL RESULT :

The Online Course Learning App was successfully designed and prototyped using Axure RP. The application includes Login, Home, My Courses, and Lessons pages with interactive navigation and user-friendly design.
